Angels and Demons in Art Rosa Giorgi 2005 This sumptuously illustrated volume analyzes artists' representations of angels and demons and heaven and hell from the Judeo-Christian tradition and describes how these artistic portrayals evolved over time. As with other books in the Guide to Imagery series, the goal of this

volume is to help contemporary art enthusiasts decode the symbolic meanings in the great masterworks of Western Art. The first chapter traces the development of images of the Creation and the Afterworld from descriptions of them in the Scriptures through their evolution in later literary and philosophical works. The following two chapters examine artists' depictions of the two paths that humans may take, the path of evil or the path of salvation, and the punishments or rewards found on each. A chapter on the Judgment Day and the end of the world explores portrayals of the mysterious worlds between life and death and in the afterlife. Finally, the author looks at images of angelic and demonic beings themselves and how they came to be portrayed with the physical attributes--wings, halos, horns, and cloven hooves--with which we are now so familiar. Thoroughly researched by and expert in the field of iconography, *Angels and Demons in Art* will delight readers with an interest in art or religious symbolism.

Legal Guide for Commanders (FM 27-1)

Department of the Army 2012-12-09 This manual, "Legal Guide for Commanders (FM 27-1)," is a guide to military law for company commanders, officers and noncommissioned officers. It will acquaint you with military law as reflected in military justice, administrative law, and personal rights, responsibilities, and restrictions. It outlines basic responsibilities and daily procedures for administering military justice and administrative law in the unit. It will assist you in safeguard the personal and civil rights of the soldiers under your command. The "Powell Report" on the Uniform Code of Military Justice stresses military law's role of maintaining discipline in the Army: Discipline – state of mind which leads to a willingness to obey an order no matter how unpleasant the task to be performed – is not characteristic of a civilian community. Development of this state of mind among soldiers is a command responsibility and a necessity. In the development of discipline, correction of individuals is indispensable; in correction, fairness or justice is indispensable. Thus, it is a mistake to talk of balancing discipline

and justice – the two are inseparable. Once a case is before a court-martial, it should be realized by all concerned that the sole concern is to accomplish justice under the law. This does not mean justice as determined by the commander referring a case or by anyone not duly constituted to fulfill a judicial role. It is not proper to say that a military court-martial has a dual function as an instrument of discipline and as an instrument of justice. It is an instrument of justice, and in fulfilling this function it will promote discipline (Powell Report: Report to Honorable Wilbur M. Brucker, Secretary of the Army, 1960).

Public International Law Gideon Boas 2012-01-01 'Gideon Boas's experience as an international litigator and his renown as an academic practitioner means he was well-placed to write a book on international law that both covers this growing field and enters it at key moments to illustrate important themes. This book accomplishes the difficult task of offering a wide-ranging perspective on the whole field, as well as conveying the ferment that surrounds it. Students of international law will derive great benefit from it.' - Gerry Simpson, University of Melbourne, Australia Public International Law offers a comprehensive understanding of international law as well as a fresh and highly accessible approach. While explaining the theory and development of international law, this work also examines how it functions in practice. Case studies and recent examples are infused in the discussion on each topic, and critical perspectives on the principles are given prominence, building an understanding of how and why the international legal system operates in the way it does and where it is heading. For each principle, the book starts by explaining the theoretical foundations in detail before illustrating how these principles function in practice. Features include: • a focus on fundamental principles of international law rather than specialist sub-topics; • integrated and contextual explanation of political and extra-legal dimension of international legal system; • principles of international law placed within a contemporary real-life context; • traditional and contemporary case studies explained in the context of legal principles; and • uniform structure to facilitate understanding. With insight founded on the author's many years of experience as a practitioner and academic in the field of international law, this work will offer legal practitioners, policy makers and students, both undergraduate and postgraduate, an invaluable insight into the field of international law.

Trafficking in Persons International Organization

for Migration 2004 IOM has conducted a study to assess the trends and responses to human trafficking in Afghanistan. Based on written survey forms, structured interviews, and a literature review it provides information on: specific and verified cases; credible but unverified cases; general trends; cultural contexts. The report documents examples of many forms of trafficking. Trafficking-related trends are also documented; even though they may fall outside the Trafficking Protocol, they raise serious human rights concerns and share many causes and possible counter measures with more traditional trafficking practices. Although the bulk of information is internal and among Afghans in neighbouring countries, there have been cases of cross-border trafficking. This report explores the legal, social, economic, and security environment to establish how trafficking has taken root and to point to early recommendations for addressing the problem

Army Barracks Management Program Handbook Department of Department of Defense 2018-01-09 Army Barracks Management Program (ABMP) Handbook describes the management of Unaccompanied Housing to support the needs of unaccompanied soldiers based on lessons learned and provides a uniform standard based on the needs of the Army and its soldiers. The ABMP supports the forming of adaptive partnerships between garrison staff and military unit leaders and capitalizes on the increased presence of military leaders at installations by emphasizing the unit's responsibility for the day-to-day management of permanent party barracks to enable leaders to effectively monitor the morale, health, welfare and discipline of their soldiers. Engaging Couples Andrew Balfour 2018-11-21 This book is a challenge to the silos in our human services that an 'atomised' focus gives rise to. They are evident in the chasm that can exist between child and adult mental health care, between competing therapeutic approaches and, most importantly for this volume, in the segmentation of support for adults who are partners as well as parents. The contributors, all with substantial experience of providing front-line services, identify the problem their intervention is designed to address, provide a conceptual justification for the approach they have used and supply evidence for its effectiveness. Vivid illustrations bring the work to life and provide examples of best practice whose relevance can readily be transported to different settings. Unusual in bringing together approaches that encompass internal and external realities in responding to the challenges of physical constraint, emotional distress and an often-volatile social environment, the contributions are assembled to highlight a common thread that can inform services at different stages of the life

course. Each chapter is accompanied by a commentary from specialists in their field who elucidate and critique the key points made by the authors and help the experience of reading the book to be one of dialogue. **Engaging Couples: New Directions in Therapeutic in Work with Families** explores new ways of approaching some of the key issues of contemporary family life, including depression, living with long-term conditions, inter-parental conflict and domestic abuse to name but a few, refracting them through a lens that sees our relationships as fundamental to the fabric of our lives - the most important social capital of all. It represents essential reading for clinicians and family practitioners of all persuasions, and those that train and support them in their work.
